

Sunday 9 Dec. 1810
of Baillie

I am happy to say the account is a very
comfortable one as our bloodhounds has
been very quiet & composed all day
Baillie's report this morning was
that the circumference was litter
in many respects & during the
time he was in the room
his delirium but upon finding
himself left with the R. Horse
he was in, but not as hurried
as usual - The dog has continued
composed - but he has made an
inquiry after his family
Public Affairs or engaged any
deputations at his own
intention - Baillie had a
very long & most comfortable
satisfactory conversation with

I doubt we may ever see what
 we enjoyed very much of your presence
 indeed I may be moved for now
 what I have heard from you
 over & over again this evening
 Butler has had nearly as
 long a talk with the Society as
 told me it was just what
 you said this evening
 Butler is in better good
 humor & I think flattered
 & pleased at my presence
 having taken so much
 notice of him & in all
 accounts I am glad that
 you have an opportunity
 of speaking out - He gives
 my comfortable hope as
 to the recovery but would

time & great was required
 for me most about the eyes escaped
 Bodley with the very Brothers
 I believe I believe has taken
 particular notice of Bodley
 & is well prepared to give
 you a most faithful account
 the first opportunity
 I look forward with delight
 to receive you to dinner
 at last part 4 & I wish we
 may have a good laugh
 with the boys after supper but
 that must depend upon
 what Brothers are at Windsor
 God bless you my love & most
 dear friend I believe you
 have thought of love
 every hour & there & that you
 will ever believe me for ever
 your most warmly & affly M.
