My Dear George

I have just seen

Boston - the dear children are
I leave me next Monday
week - the Duke has sent to
demand the articles of debt
together with the linen and
Bills - I wish you commenced
on this - I have no prospect
as yet of getting the 2000 -
in consequence of this I was

ought to tell Boston - that I most
consider myself and submit to
my profession as the only means
left me of extracting myself
and to my great amusement
he said - that the Lord would
not say objection to it -
tho it is inserted in the writings
I have neither seen or heard
from Tophy since - her conduct
is most unfeeling - I would not
for her sake that the world
~~should~~ know it - I have not
yet determined what I shall
do - I am not with God
Bless you - your aff^{ct} Mother J. J.
