My dear Sir William

It is certainly Lord
Melville's intention to
promote your Brother
at an early period, and
I think his appointment
to the Yacht would rather
impede than advance it,
I therefore recommend
your allowing the usual
course to be pursued
which

which for so short a
service is to have
a lieutenant lent to
you from one of the
guard ships furnishing
the men.

Yours very faithfully
Blackburn

Captain W. Hoche B. K. L. S.
