

1809

May 12<sup>th</sup> 1809 -

I hope that sending you the Book as soon as it has reached me will put  
 some lie & in short with his to & some friend; it certainly has  
 had the appearance of my being unacquainted of your business but this  
 I am assured you is not the case - There ought not to forget it &  
there I considered him of it, but your want of right to know  
his things without apostrophe & others but one business to  
arrange; this business was very & did not return to this  
business which concerns for the delay - I hope you will excuse  
 it in time and that you are assured how happy I am now  
 when I can serve you in any way - We are very far from London  
 as shall say you have promised to come here - My kind love  
 to your lady & and believe me most truly Yours very sincere  
 friend

From Princeps Sophia
