

1809

June 23rd 1809

I wish but I cannot see how I can do it. I have the
 it to write in to any thing, but the instant I am equal to
 telling my son I wish to thank you and to send you the
 enclosed which I hope will do - I am only afraid it may
 offend you but I cannot help it, I wish you to send it &
 then read it - I have not had a word from Ann since
 and conclude she is very well, but I hope I have asked
 up to your advice; if a I shall be pleased and she and our
 - him when next it happens to tell me if you are satis-
 - fy'd - will you be so good - I am glad to hear of
 the whole but never forget to give them some express
 - will you have the kindness to give the enclosed &
 you did the promise keeping was ever the most wise

My son is so weak that I hope that will please my
 mother for as much as I can - You may depend upon
 it neither he or I shall ever have the smallest
 idea of any business with you or you to me -

From Sth Sophia
