

1809

September 17th 1809

It is not possible for me to find words that will in any degree express
 my feelings to you about Mr. B. how very much I feel your kindness in
 the truly friendly manner in which you have so immediately come
 forward to assist me in my unreasonable request. I can only say I
 am not ingrateful and wish in any way more to benefit I would
 have to you how deeply I am indebted with your invaluable kindness
 and attention which has been the same from the beginning
 hence when first I made your acquaintance - be you in any
 kind as to say you will endeavor to procure the money in the
 course of this week I will tell you ten safe ways of consequence.
 should I succeed in the same as which day under your direct to me
 you would send it by the Ship Chaise then you were my share
 day you then send it to the care of Mrs. Thistle at the 2^d
 house she is known indeed daily sending parcels to Mrs. Richardson
 in a third way; you were direct to the care of the care of the 2^d
 of St. John Street London she forwards all letters & parcels by the
Post to me - how gracious your kindness the letter I have
 with me; what shall would she imagine was going to you may
 in future kindly tell her that I apply to you about there in any
other circumstances regarding the payment of the bill and some
 time you might add that I do not scruple asking your advice in
 any matter for I look upon you as one of my very best
friends & when proposed I would tell in reference to my share
 - You know how in the same time in some way from the bill

of light and daylight has promised she shall stay here for 3
days; now for fear of jealousy it has occurred to me whether the
same wd please Jerry and if in what you wd approve and advice
my writing on Elizabeth's wedding has a prospect by some saying
that in some way down the by Thomas's in during the time
some conversation is here in relation of the wd when he comes to stay
a few days - It is difficult to show them of standing me in the
time but I am so anxious to keep them right of justice and
know that we all wish to be as kind to both as it is possible
I wish you always to give me a hint if you see any thing in
any way that I could do to keep peace - I wish to be both of
to understand about By I have written for you & I know three times
again I they are not settled & happily I join you pride by Elizabeth
which they are not aware of I shall pick up a post card -
You wd pity me would you see what I have to understand me with
By who is integrated because I wish I have kindness to you best
mother who is left at home; she is a good creature & I truly
love her; as the By she is made up of madness and it gives
up her sense & some way here; I was certain she was not
less behind my ill and I thank her for being a good natured
as the subject to it - you account for the best I think
was from some unpleasant I had some times been a journey home
in the last week when at the end of them when she was
by no means renewed the joy from I by no means what she
was when she left this - but tho you know to be and believe
you must truly be well affairs
