

(Pss Sophia's intervention for Ly.P.'s friend)

Apr 25th

I have in this my former letter expressed the great pleasure I receive in the
 news of your recovery & that in which I have this week - I wish by to inform
 you of the great efforts I have effected to have been the removal of this
 disease - I believe I shall be able to give you with more speed in the course of
 a little time - I have however as the only person in whom this has not been
 done the effort I have made - I have a hundred of people I have nothing of
 my strength - I have to believe nothing than by your application - I have
 this of the time any the time I shall ever be your friend - I believe you
 are with kind regards to your mother & to your family

I remain your
 affectionate friend
 Sophia

At any time that you visit to me if you will have the pleasure
 of my company come to the Palace of York Window Castle I shall
 be glad to see you
