Dear Sir,

Having been out at sea
- now yesterday I could not answer imme-
- diately Yours of 14th instant of the morning
and have delayed till now thinking I might
have had another line before my return
into the County. I now set off on Tuesday
out for I shall not be in town before 17th
instant.

I hope in God the thing is permanently
recessing and is slowly. I wish His
Majesty had not been in bed. But I am

glad my brother did see Don Miguel he
- came I really believe the Prince leaves
England with the most favorable im-
-pressions.

I am glad of the new Government
from the utter silence of the whole. It
shows things advance propressively
and stability is used.

I am anxious to see the King at ease and
the Ministers enjoying the confidence
of the country.

Dear remain,

Yours most truly

W. Pitt Rivers
