My dear brother

52187

Providence has in so remarkable a manner  
helped your fleet, that it would be a want  
of feeling if I did not express my joy by these  
lines. England never stood so high in the  
opinion of the Public as now, nor did our  
countrymen more duly appear in so conspicuous  
a light as now. This complete Victory may bring  
those Monsters to their Senses, or else by banishing  
their present Tyrannick Government.  
at Berlin they have been overjoy'd, which  
has much offended Seigns & his great Henry  
who is really mad, he said the King of Prussia  
is not a German. How can he then be Elector  
of Brandenburg. Believe me dear brother that  
no one can feel more than myself what you  
must have felt on receiving such great & good  
news, god preserve you & health & spirits for

may be able to go through your duty which is  
incumbent on you. with ever wish of my heart  
attend I remain dear brother

your most affectionate  
dutiful Subject
