On the road here yesterday I received your most kind
& gracious letter of the 9, I communicated to my sons your
intentions which they have charged me thank you for
in the properst manner. The Commodore Owen has been
with me at Gravenstein & as soon as he is ready the wind
is fair we shall not lose a moment. I long for you or to
pay my duty in person excuse the hurry I am in my
nerves are in such a flutter that its with difficulty that
can hold my pen. I ever am my dearest brother with the
huest affection
