

My Lord

The Gentleman that is entitl'd  
to the benefit of the Grant mentioned in the enclosed paper,  
finding himself as he tells me not of weight or size  
enough, to exercise and enjoy the great Profits he is  
entitled to under this Grant, from the many Inroad<sup>ts</sup>  
that have been at different times made upon the Rights  
of the Crown, thro' the great neglect of their Officers  
and Agents, and being advis'd that if this Grant was in  
the hands of his R. Highness P. Edward, as being now  
Duke of York, a vast annual Income might be  
produc'd from it, and that too without <sup>great</sup> difficulties, &

Gentleman,  
 this hearing that I had the great honour of being  
 in some degree known to his R. Highness, has applyed to  
 me, and laid this matter before <sup>me</sup> as stated in his enclod-  
 paper, at the same time signifying his willingness to  
 dispose of his Interest in the Grant to his R. Highness  
 on very reasonable Terms. As this Grant my Lord appears  
 to me, to contain a prodigious extent of Royalty, I think vast  
 Emoluments might be gathered from it, especially from  
~~consider~~ the great weight and authority it w. be of in the  
 hands of his R. Highness, and therefore my Lord thought  
 it deserved some attention, and that it was my Duty to lay  
 this Gentlemans proposal before your Lordship, for your  
 Lordships consideration, whether any thing, and what  
 may be tho. fit to be done in it, and if your Lordship  
 pleases, I will lay all this matter before Mr Martin  
 whose extreme good understanding and legal knowledge  
 may.

may be of great use upon this occasion - however my  
Lord whatever turn this Business may take, I hope  
your Lordship <sup>goodness</sup> will forgive me the troubling your  
Lordship about it, since I was only prompted to it  
from that honest Zeal which I have, and ever shall  
have for the Interest of every part of the Royal  
Family.

I am my Lord with all  
Duty your Lordships  
most faithful &c. &c.
