

Dusky House.
 Dec: 12: 1825.
 Late at Night.

My Dear Lord,
 I am to acknowledge your
 Lordship's letter of yesterday and rejoice it
 has been in my power thus early to employ
 Commander Cook whose petition we have
 with much of hearts as true and sincere
 we will properly.
 Your Lordship the son of an old first Lord
 of the Admiralty and one who has ever been
 alive to the interests of the Company must feel
 pleased at the result of the event in favour
 by the able Mr. Calman (Captain) and several
 officers and men under his command. I believe

The Park never before felt the British be-
-quency of our years.

I trust our grand old children are as well as
I wish them. I understand George and Mr. Fitz-
-Clarence return to St. James either tomorrow
or next day or here. He for next summer to
meet - I never for August either on her return
from or on her journey to - I do not at St. J-
-mes.

I ever rest assured,

My Dear Lady,

I am,

Yours most truly

William Pitt
