Dear Brother,

I have only a few minutes  
to write to inform you we have been tumbling and  
spinning these ten days to no purpose I am as usual  
here in a perfect state of ignorance as to what I am  
from any judgment, when we next return, but you  
may be safe. In London we are to be thought  
exceeding by the end of the cruise and my anxious situation  
I love to. Andrick and complements to every  
body and believe at all times

Yours sincerely
