The details above mentioned are necessarily imperfect. Much
 must remain at your discretion after due Enquiry and
 Consideration; and there may be outgoings and Expenses
 which I have not enumerated. It is not my intention
 that my allowance of £2050 p^a ann for the Establishment
 intended for the young ladies in Audley Square should
 be exceeded: but some addition may be necessary to the
 £210 intended for Mr. Frederick Fitzclarence and his
 younger brothers inasmuch as the 2 younger brothers are
 now with Captains in the Navy who have some latitude
 in their power of drawing.

After making the appropriations above specified

a considerable surplus will remain to be applied towards the extinction of the Debt now unprovided for: an object which it is much my desire should be accomplished.

But although my Power of Attorney is so expressed as to enable you to act for me in almost all cases and exigencies which may occur during my absence there are certain limitations which I wish to prescribe viz: that no alteration be made in the system of management which has been adopted for the Farm and Gardens at Busby Park except that the produce is to be accounted for and it is my wish that Mr Daniel may continue to superintend them.

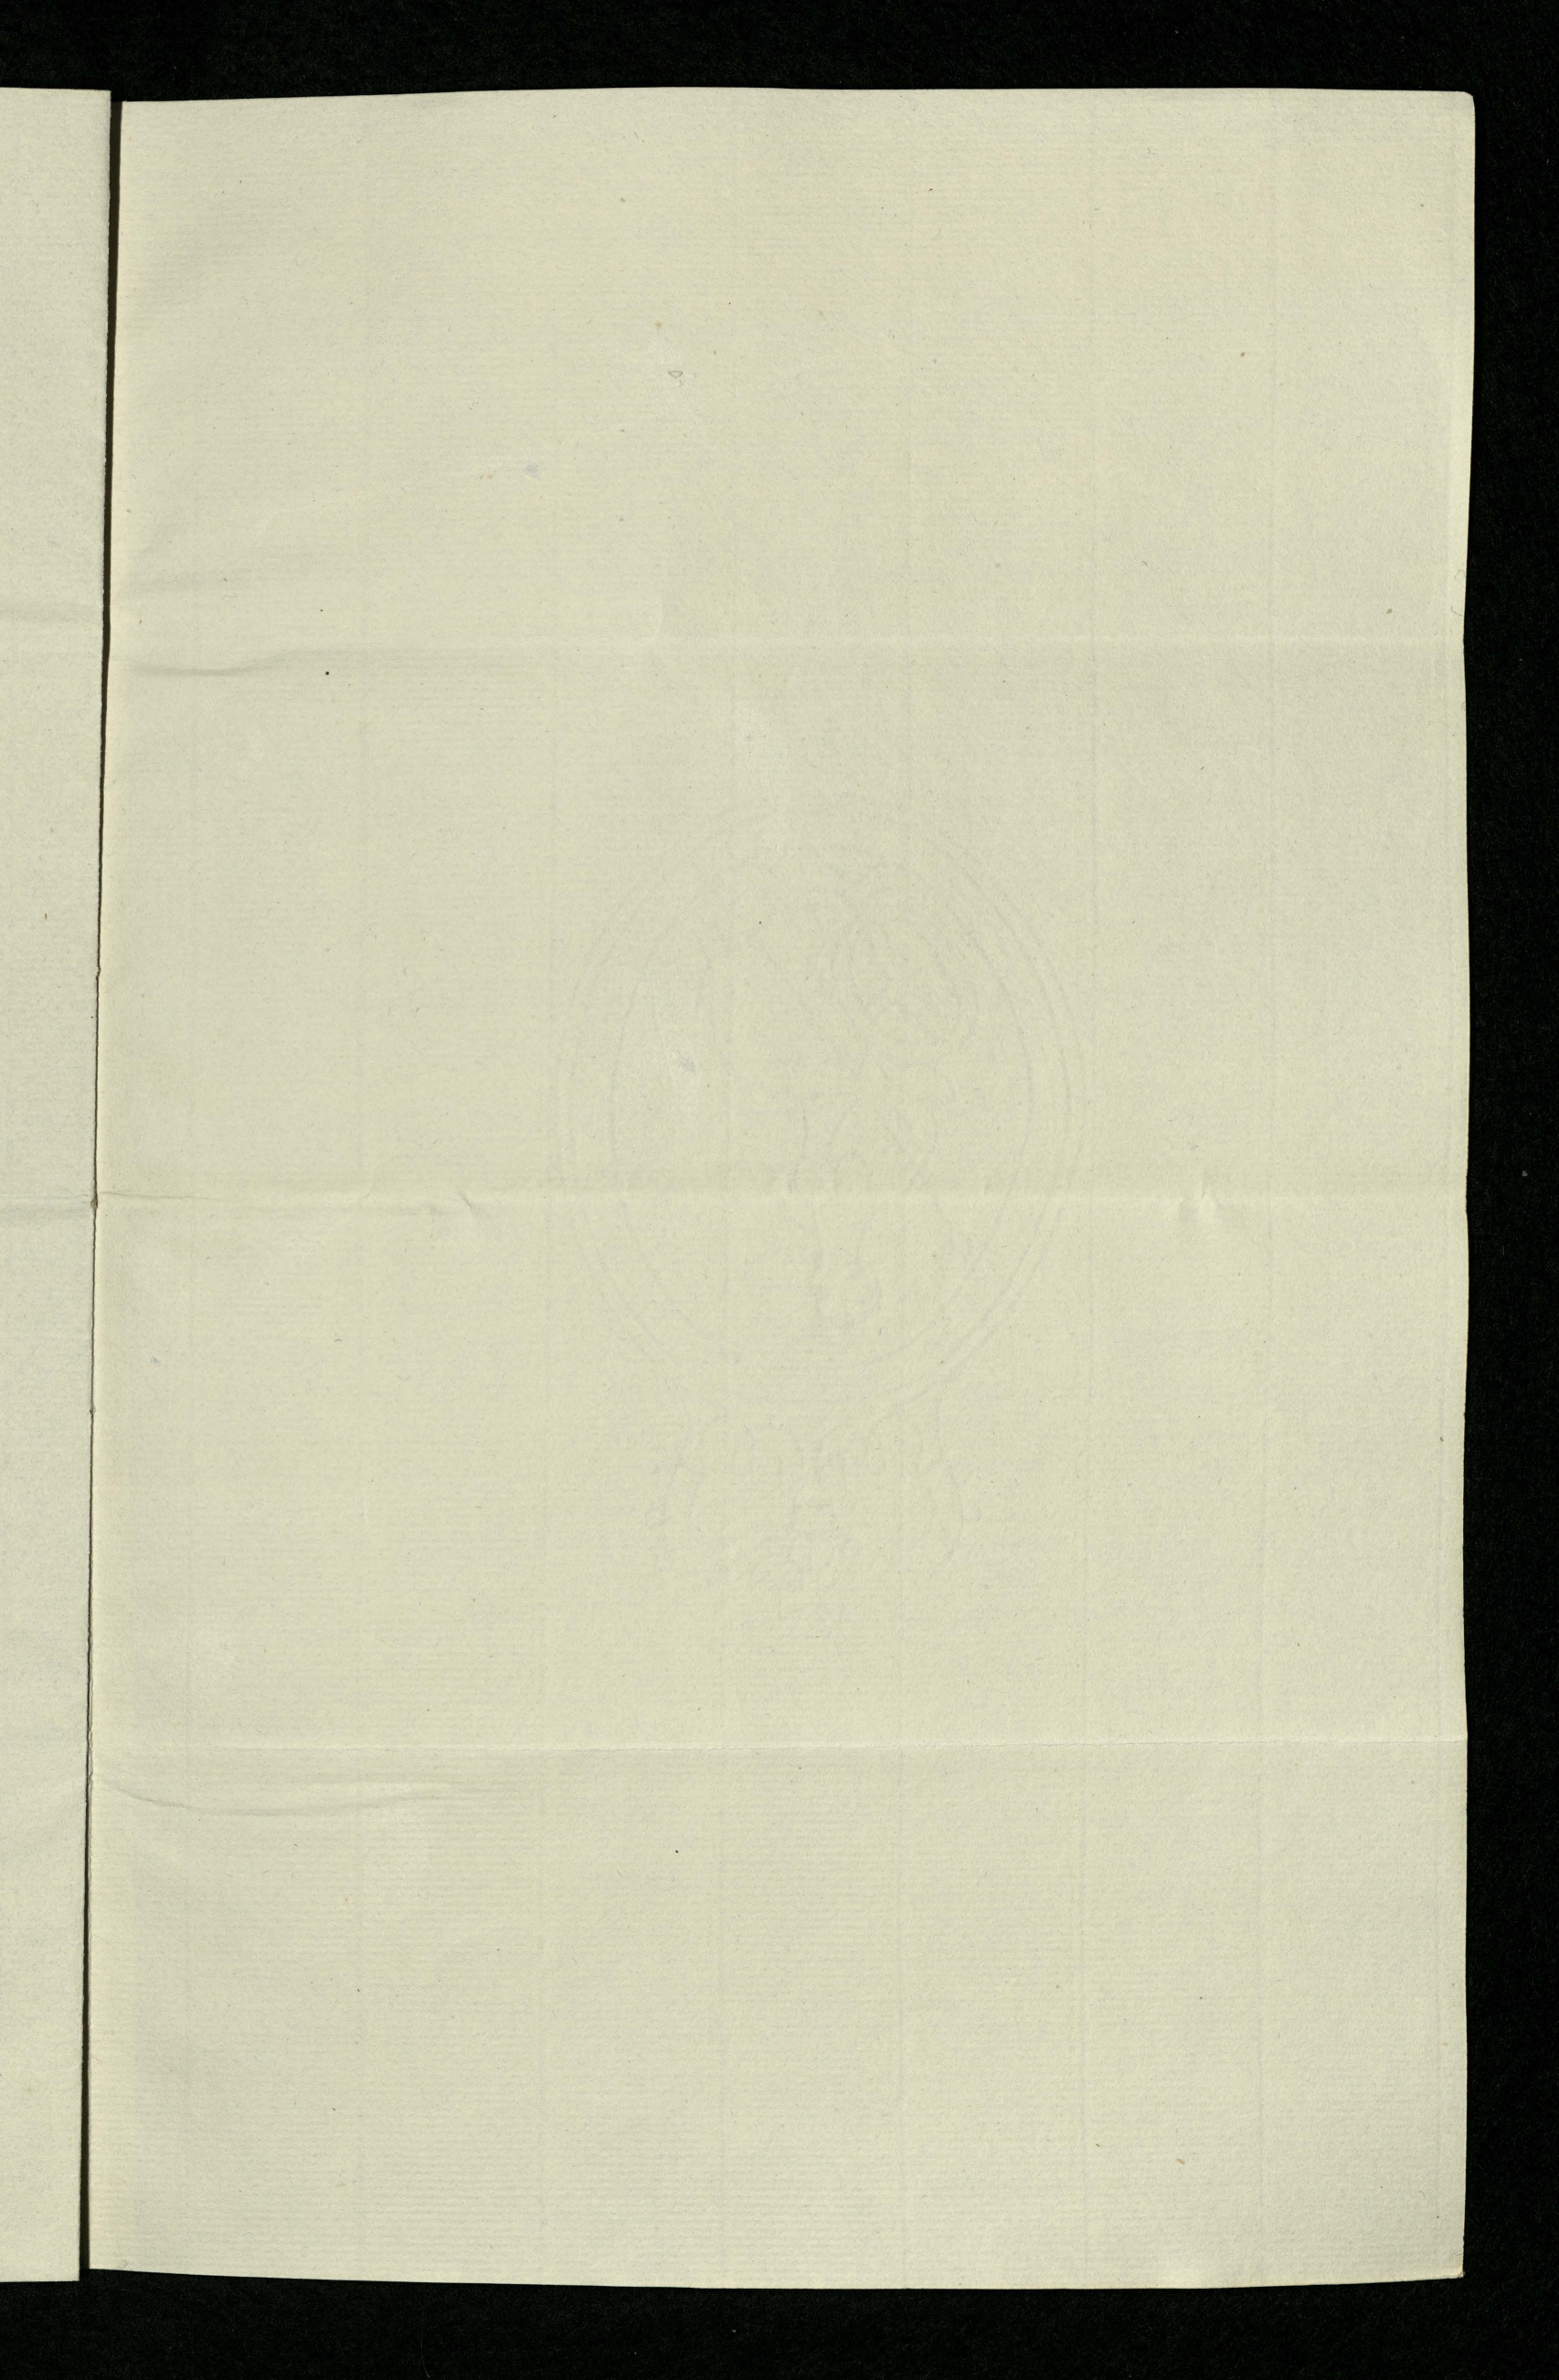

I desire that the Persons now on my Establishments be retained and that none should be dismissed without reference to me: but it must be in your discretion to suspend any of such Persons until my pleasure can be known.

I also desire that no alteration be made in the Plan which has been adopted for the Establishment in Audley Square without previously taking my approbation.

I am My Lord and Gentlemen
