My Dearest Brother

I took the earliest opportunity to mention to the King the Message You left me for Her - He was very much pleased at Your wishing to give a jeu de Joye upon the Queen's Birthday as He thinks every mark of Respect and Affection should be shown Her - But I cannot get a certain answer about the time. He said He was affraid that the Queen should be fatigued with running from one amusement to another for He purpose giving Her a great deal - and that He had business in the Great Park which He had temporarily put off till that day that He might have the Morning quite quiet and to Himself as He intended to take at the Ball the night before. I hope You told the Prince of about the Drop for Progress - Marble and a Hat. Now You are a Married Man You must be true with such Messages - Mrs Amities to Her and believe me ever

My Dearest Brother

Your very truly Affe

Augusta
