My Dearest Brother

I cannot let tomorrow pass,

a day that makes me both proud and happy, without writing You a line to tell You how much I love You, and how many happy returns with every blessing and happiness I wish You may see of it — If all others should be most guilty and ungrateful if I did not feel it as my duty to do — but I trust You have had proof enough that we do love You more than Your most truly Devoted and Affectionate

Have not we reason to be very proud of our Brother abroad?
