My dear Lady Charlotte

I had intended to have wrote
to You yesterday to express how anxious we
all are about Your dear little Angel but I
have just received Mama's commands to let
You know how sincerely she feels for You
She wishes that dear little Augusta should
know it, for Mama always loved her
exceedingly which she sure is no more than
what the dear Child deserved, for she always
expressed a great affection for Mama.

We hope my dear Lady Charlotte that You do
a little consider your own health which so
precious to all your friends but particularly
so to us, we all are much hurt to think
that we can be of no kind of service to You

in this present occasion — I trust that Divine
Providence will still preserve to us dear little
Augusta and that by the next Post we may
hear that your mind is more at ease. But
Pray let me again beg and entreat that
You will take care of Yourself, if an
opportunity offers Pray name me to Mr
Fielding and say that no one feels more
for her than what I do for her and
her amiable daughter. Adieu dear Lady

Believe ever yours

A. F.
Gliza.

I will write very soon again.
