Widdowes letter
Sept. 15th 1834.

My dear Lady Eliza

I hope you
have received my delazins
this long & tedious year
my kind letter of the
15th of August & will
kindly accept now of my
most sincere gratitude
for it as well as for
the beautiful & better
water which accompanied
it. You are too good
& remember a Day of no
little importance & I shall

you I feel deeply all the
kind wishes you have
expressed towards me
on that occasion & so
witness the Water cooler
was much.

I have passed a very
happy March & I hope
in my native country
surrounded by almost
all my relations & nothing
was wanting but the
presence of the King,
who I am sure would
have enjoyed being there

if he would have done so.
I feared him quite well
on my return to England
& am happy to say he
has been so ever since,
except a slight cold
in his head with which
he is troubled just now.
I have not lost my
wasp, as I had hoped
by the change of air
& I now expect I shall
never lose it again
as this trial has failed.
I hope that you will give

Family are quite well &
begged to find my best
compliments to Mr. & Mrs.
The King joins me in
best wishes towards you
all & sends you his
kind regards.

God bless you, my
Dear Lady, believe
me ever, your most

affectionate &
grateful
Friend
