Lord Sandwich & Halifax are just now returned from My Lord Chancellor, who much approves the Steps that have been taken for the Reestablishment of the publick Peace. His Lordship is of opinion that a Motion should be made in the House of Lords on Monday for an Address to his Majesty, that he would be graciously pleas'd to issue a Proclamation to enforce the Execution of the Laws against Riots & riotous Assemblies.

Lord Sandwich has just now received a Letter, which shall attend my Note to his Majesty, from the Duke of Bedford, which will show the State of his Grace's apprehensions and Intelligence. Every Thing necessary will be done in consequence ^{of it}, but as no Confirmation of such Reports have been received from any other Quarter it is hoped they are groundless

My dear Lord

There will be in readiness to receive
the troops in Moor fields four Justices and
the 2 High Constables, tho' we don't know
whether Mr Pell is in Town or not. Every
thing is quiet in Spital fields & in Moor fields,
but it is apprehended by Mr Welch, that they
may by small parties rendezvous in St George's
fields on the Surrey side, therefore Ancren's
Dragoons which ^{are} at Lambeth should be in
readiness to intercept them, attended by a
Middlesex & Surrey Magistrate. We have a
report that a body of Sailors are to join them
in the Evening, the truth of which might be
found out amongst some of your Friends in
E. of Sandwich

the City, and even be prevented by them.
The Master Brickmakers have also been
threatened that their Clamps shall be destroyed
if they don't make their Men join with the
& this night being Saturday when the Labour
Men receive their pay, it will be more dang
erous than any other. Ever yours

B.
