My Dear Brother

I would not trouble you again till I had very good news to give you of Emily - she has bathed three times and been as often to the Play which she enjoys of all things and has walked out a little in the Sopleade - I really think you would be perfectly satisfied with her Appearance - Her spirits are much better and she having been at sea you the greatest Delight - My month is very full - but you people of our acquaintance - however I think mean a Host in ourselves - & on Tuesday we shall have our Dear Field which will culminate every thing -

I am very anxious to know how your Private Matters stand since I had the last conversation on that Subject at Sunday - much time has passed, and I am very desirous of knowing whether the whole affair is Settled; for indeed I think it would be Desirable, considering how very much it stands to your credit that I find simply and unalterably attached should come together again - it is not like the passing of a Day - but built upon real Affection & Esteem. - On Yours

side I can assure first & I trust for Your Happiness it is the
on the other - Write to me soon and direct it to Lady Cathart
I long to hear that the first Sea-barketer is landed - it makes me rather
nervous - and when things are to be done - Public or Domestic, you
or God - finish them soon over - If You should see Cathart let him
he shall have my blessing in the manner I am certain he will give
you as I send it by you - It is an old saying - that a thing is well
done when quickly done - but I think it is, according to the manner
in which it is done - Now we improve upon the old
I am sure You think the Sea Water has ruined me - but if
it will but leave me a grain of Sense and feeling I shall never
cease thinking of and loving My best beloved G. - God
bless him Dear August - & May he think me and those
of his
most truly Affectionate
