My Dearest Brother

My kind remembrance is ever
as to take charge of a little present which I hope will
accept as a tribute of affection from Sister and my
self - You are well acquainted with my heart and
that you have lived there from the moment I first
could set in my heart, and with a true affection can
some reason could from my judgment -
It is my wish that I should try to make a comple-
ment to you when the truth speaks for itself and
I cannot but be ever sincerely as one day there
I shall the days of my life - My affection for you
may increase - I wish an old friendship as now has
the power of your having, that it will never wear
out with the distance of

Your most truly devoted & grateful

Augusta
