My Dearest Brother

The great point is at last decided and we are to have a Ball next Monday - The King was so good as to Name it himself, thinking it would be the Amusement we should prefer - and we all very readily accepted of it - Perhaps I may see You for a moment before that Day - if not I insist upon Your coming up to me the instant You arrive - even if I am in the midst of a delightful dance - God bless You My Dearest W.
