My Dearest Brother

I have received the letter

from the Queen of Württemberg in which she again
repeats the sentiments of grateful affection for
your kind invitation to this country, she is looking
forward with the greatest happiness to the moment
when she will be surrounded by her friends here —

She also desires that with her best love to your
self, I will propose to you if you approve of it
that the yacht may be sent to Rotterdam instead
of Amsterdam — she is already counting the hours

and shortly will be counting the hours which will
bring this amongst us all again

I was most happy to hear from William that you
were looking so well yesterday - I found at my return
from home I was glad to find you in perfect health
by which you may see I am not so far from
you as I thought I was

Love from your truly affectionate
Mother

Augusta
