

GEO/ADD/4/119

The King has received Colonel Hotham's two Notes concerning  
the two Services of Plate that Hummings has to dispose  
of. He should imagine the last mentioned is weighty enough  
to bear such polishing in which case he must imagine  
it preferable to the former when the Surcer is added  
to it. The letter to P. William meets every way with  
approbation.
