

J. James.  
 Jan. 23. 1820.

My Dear Lord, I am to acknowledge  
 yours of yesterday and hope by keeping a  
 sharp lookout on the state of the Army  
 should we may be before head with the  
 Lord Lieutenant when the he might have  
 been left, formal is upon the whole a  
 reasonable and I thank you to guide  
 give your Lordship the Regiment.

I have this morning re-  
 ceived a letter from Admiral Griffith  
 at Halifax informing me he has spent

I refer to the command of the Parma Frigate: desire Mr. Thomas to make immediate application to Lord Pelville for the confirmation of his commission.

The Dutchess's request will be kindly remembered to the Countess and her sister: my best and sincerest wishes attend all my worthy friends at Beaulieu: the Queen is endeavouring to do all the harm she can: but I still hope and believe the good sense of the nation will ultimately prevail over folly: my old friend the Bishop of Chester might to call the King's name to account for not obeying

the orders of his superiors: advised me  
believe me,

Yours sincerely

W. Williams
