

Brighton.
Sunday Evening

Dear Daniel,
I have this morning received ⁴ yours
of yesterday and its various enclosures. I have
promptly sent the letter: return to the garden-
er approved his list of needs, wants, for the next
season: he may begin the paper & these immediately
-ly: but as return home is soon, I will not
concern the other Hot Houses till I have con-
-sidered them myself: I must approve of every
suggestion of yours that has precedence for its im-
-port. at the same time you must recollect

that I have some pleasure in concealing and shall
 therefore well consider about the Colts: the
 more you talk over my affairs with Boston and
 Mills the better and I am sure under your inspec-
 -tion all will go on well: you need not send
 the Mine expenditure for last year but I will
 examine it on my return home: I am afraid
 the Cellar is in confusion and we must have it
 put into good order: your observations on some
 of the Mines are correct: but I believe Cape
 Mine and Cyprus cannot be kept too long: how-
 -ever we may exchange the best Mines for
 Port and Sherry: I shall be anxious to hear from

Barton has heard Mr. P. have executed their
commission yesterday and today: God bless you
and ever believe me,

Yours sincerely

J. P. [Signature]
